ROAD TRIPS WITH THE FAMILY
MAKE BEAUTIFUL MEMORIES -
EVEN JUST TO SEE BEAUTIFUL
NATURE!

USA is a country of immigrants. Since its founding in 1776, more than 100 million immigrants have come here from all over the world. Many escaped political & religious persecution, poverty & lack of opportunities in their homelands.

The US Constitution promises 4 freedoms: worship; speech; the press; & assembly. Even today many countries do not have these freedoms.

Although USA is not perfect (ex. Native Americans & black people lack unbiased protection by the law), it is still a country worthy to be celebrated & appreciated. All citizens are responsible to make USA good. Moral families are the foundation of moral societies & nations.

Why not plan on visiting other states? USA is a large & beautiful country!

Happy Travels!!
