ART KIT #3

# DRAWING STILL LIFE

DRAWING what you see  
IS A GREAT SKILL - not  
just for ARTISTS but also  
EVERY ONE!

engineers, scientists

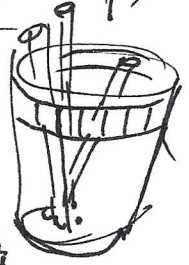

To draw something well you have to look  
at it 100 times more than you normally  
would!

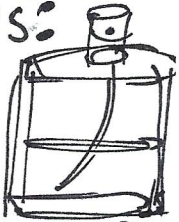

DRAWING also helps you to appreciate  
what is around you.

The more you practice anything the  
better you will become at it.

PRACTICE drawing many different things:

shoes, socks, a cup, a leaf, your hand,  
any thing and everything.

# Have FUN!

# (DON'T BE TOO CRITICAL OF YOURSELF.)
